MOBILE RAID DRIVE

## Professional 2.5" Mobile RAID

The Avastor XMR RAID houses two state-of-the-art high performance 2.5" SATA hard drives within its compact advanced design enclosure. The XMR is the perfect storage solution for traveling audio/video professionals, digital creationists and anyone who needs fast, flexible, compact, portable RAID storage. It is small, lightweight and designed to allow you to take your projects on the road, in the air or anywhere your busy schedule requires.

### Key Features:

- The most portable RAID system available
- Choose from multiple storage capacities ranging from 1TB to 2TB
- Raid modes include JBOD, RAID 0, RAID 1 and Span (LARGE)
- Select RAID modes easily using RAID Master (software included)
- Monitor RAID status via RAID Master or LED indicators
- Bus powered via FireWire 800 connection
- Power Supply included when using eSATA connection
- Protective neoprene sleeve (PortaSleeve)
- Industry best, Comprehensive 3 Year Advanced Replacement Warranty

### Big Performance

When you have the need for speed, the XMR is equipped with the latest generation bridge chipset, the fastest drive mechanism on the market and an eSATA port which combine to deliver the fastest dual drive data transfer rates possible. Having a "triple interface" in one portable enclosure makes the XMR ideal for high resolution data applications, such as audio/video editing, digital photography, and high-speed backup.

## Professional 2.5" Mobile RAID

### Technical Specifications

#### Interface / Connections

eSATA (1), FireWire 800/1394b (2), USB 2.0 (1)

#### Hard Disk Drive (HDD) Support

2.5" SATA HDD for thickness up to 12.5mm

#### Data Transfer Speed\*

eSATA	up to 3Gbit/Sec
FW800	up to 800Mbit/Sec
USB 2.0	up to 480Mbit/Sec

#### RAID Level (Configured with GUI)

JBOD	(Individual HDDs)
SPAN	(1 BIG HDD)
RAID 0	(Striping)
RAID 1	(Mirroring)

#### LED Indicator

Power / Connection / Health / Access / Rebuild

#### Dimensions

6.1" (155mm) x 6.1" (155mm) x .5" (22.5mm)

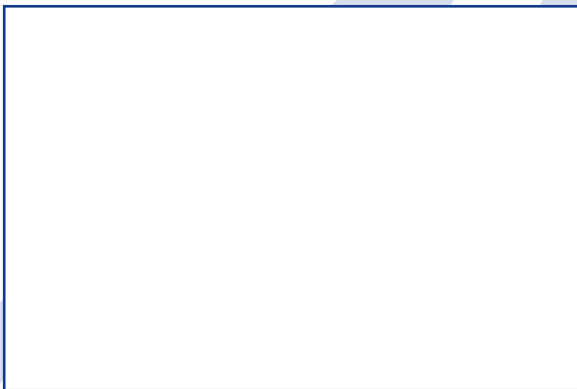

#### Operating System Requirements

Windows 2000/XP/VISTA/7 and Mac 10.4 or higher

\*ACTUAL TRANSFER RATES MAY VARY  
ALL SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE
